

July 15, 2021

Effective immediately, until further notice, MasterBuilders Solutions will only be producing NP1 in the following 6 colors: **White, Limestone, Black, Stone, Medium Bronze, and Aluminum Gray - along with TX1 White.** They will be producing all of these colors in 10.3 oz. cartridges and 20 oz. propacks.

SSICM will do the best that we can to keep those 6 colors in stock, also we will be closely monitoring the rest of our inventory in the other colors. SSICM will try and fill everyone's orders as much as we can in a timely manner, but this situation is out of our control. SSICM has other products that are more readily available to fill your needs for all of your color needs.

We know this may be an inconvenience, but SSICM will do the best that we can to fill your orders in a timely manner. If you need documentation for your construction need, please ask your SSICM rep or email John Barnett at john.barnett@ssicm.com.

Thank you for your business and we sincerely appreciate your business in these challenging times.

John Barnett
